

Dear FCC, I am a listener of KLOVE and I am not pleased with the idea of using the LPFM way of broadcasting KLOVE. I really don't know if I am in a KLOVE receiving area, but I know that it has had a great impact on me, and to my local community. If KLOVE were to be displaced by an LPFM broadcaster providing other programming, that would be bad. To me, that's like taking prayer out of school. Prayer went out and crime went up. I am not pleased! I believe that the service provided by KLOVE is in the public interest because it reduces stress in drivers, makes for a better work environment, and helps bring the message of God around the world. Please consider your actions before you act. T.J. Harris
